

INTRODUCING *WillowWood*[®] KOA[™] LP

STAY
STRONG
WITH THE
KOA LP.

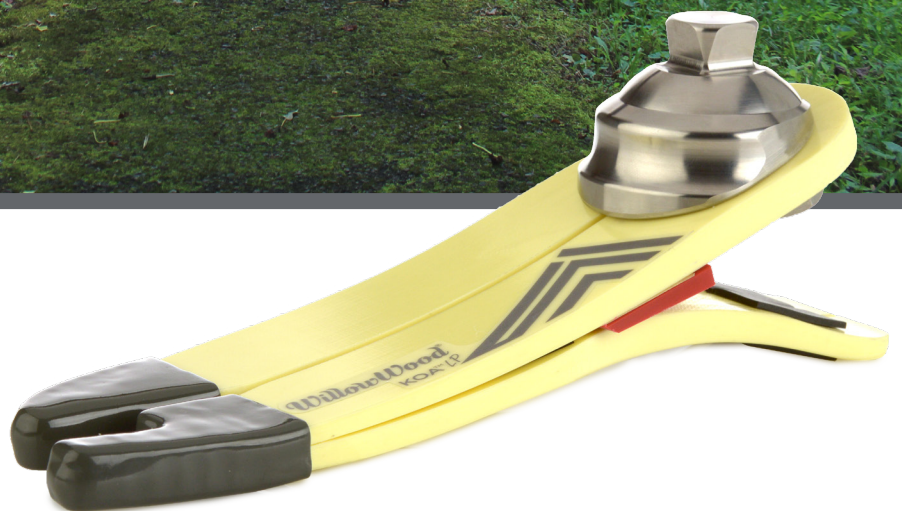

SPLIT KEEL & SPLIT HEEL

LOW BUILD HEIGHT (2.6")

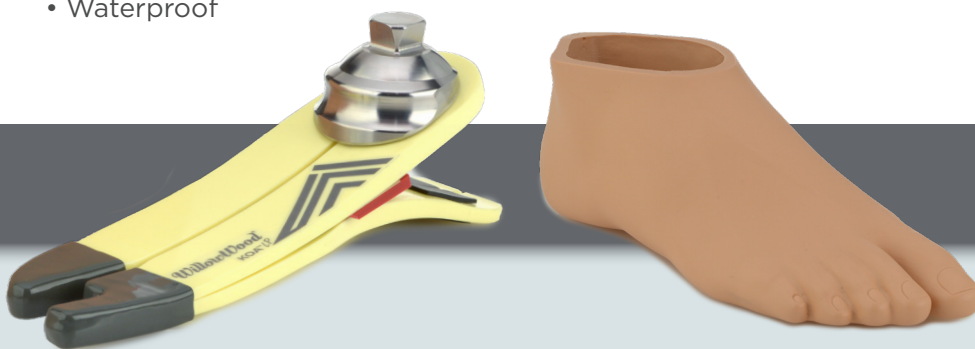

SANDAL TOE DESIGN

The Koa LP is a moderate to high activity fiberglass prosthetic foot providing both smooth rollover and energy return. With one of the lowest build heights among fiberglass feet, the Koa LP can be used with longer residual limbs and a range of components.

KEY FEATURES:

- Ultra-low profile
- Split keel and heel delivers greater ground compliance
- Suitable for transfemoral and transtibial amputees
- Adjustable heel response
- Waterproof

K001-XXX-X

Model	Size	Side	Toe*
Koa LP Foot	23-28 cm	L = Left R = Right	2-9

Part number includes foot module, foot sock, and 2 heel wedges.

FS01-XXXX

Model	Size	Side	Color
Koa LP Foot Shell	23-28 cm	L = Left R = Right	B = Buff T = Tan M = Medium Brown

Koa LP foot shell sold separately.

*** To select proper composite toe spring stiffness:**

1. Calculate adjusted body weight.
(Adjusted body weight = patient body weight + loads normally or routinely carried.)
2. Using adjusted body weight and patient activity level, select toe spring stiffness from the chart below.

User Weight	IMPACT LEVELS		
	Low	Medium	High
99-115 lbs (45-52 kg)	2	2	2
116-130 lbs (53-58 kg)	2	2	3
131-150 lbs (59-68 kg)	2	3	4
151-170 lbs (69-77 kg)	3	4	5
171-194 lbs (78-88 kg)	4	5	6
195-221 lbs (89-100 kg)	5	6	7
222-256 lbs (101-116 kg)	6	7	8
257-287 lbs (117-130 kg)	7	8	9
288-324 lbs (131-147 kg)	8	9	-
325-365 lbs (148-165 kg)	9	-	-

SPECIFICATIONS

L-Codes:	L5981, L5986
Sizes:	23 - 28 cm
Product Weight:	585 g**
Weight Limit:	165 kg (365 lb)
Build Height:	67 mm (2.6")
Heel Height:	10 mm (3/8")
Heel Wedges:	Medium (red), Firm (blue)
Foot Shell:	Sandal toe
Trial Period:	60 days
Warranty:	36 months (foot), 6 months (shell)

****** Based on size 26 cm, category 4, with foot shell.
