

# C.S. Osborne Aramid Shears

**Available in 5" and 8" Overall Length**

C.S. Osborne & Co. Aramid Shears! Available in 5" and 8" overall length. Aramid shears are great for cutting Kevlar, carbon fiber, fiberglass, and other high-strength synthetic fibers. They provide a clean, efficient cut for materials that would be difficult to manage with regular scissors or shears. These are designed to minimize fraying by cutting the fibers cleanly and evenly, preserving the integrity of the material. They maintain their sharpness and durability.
