

# BOA UNIVERSE

Designed to accommodate the need for a universally sized lumbar support that incorporates a mechanical advantage pulley closure system to improve compression and stability. Intuitively designed to be custom fitted to a patient's size and needs. Three versions assist with lumbar (627), thoracic (631) and lateral control (637) of the lumbo-thoracic region. The light weight, low profile and comfortable design make the BOA Universe a back brace the wearer will enjoy wearing for acute or chronic conditions.

## Indications

- Acute & chronic low back pain
- Post-operative support
- Activity-related low back pain
- Disc herniation

## Features/Benefits

- Low profile belt allows for fitting of most body types
- Patented compression closure lacer is simple to operate with one hand and provides 6-l compression
- Belt length is easy to customize length to patients waist measurement allowing for optimal fit
- Belt is hand washable and is warranted for 6 months against defects or damage
- Belt can fit patients from 25" – 50". An extension panel is available to fit up to 55" patients
- Side panels on the 637 are adjustable and/or removable to allow for proper fit and function
