

## BALANCE™ FOOT S

Combining a soft heel bumper, a unique C-shape, a wide foot blade with a split toe and an optional torsion unit, Balance Foot S provides the stability, security and safety that K2 users demand, while elevating the K2 experience to the next level.

- ① **C-Shape**  
Designed to enhance range of ankle motion to experience easier sit-to-stand and a more fluid, natural gait.
- ② **Heel Bumper**  
Cushioned, stable composite foam heel bumper gradually tapers and stiffens for smooth rollover and push off.
- ③ **Wide Foot Blade**  
Designed for slow to medium walking speeds.
- ④ **Split Toe**  
Provides multi-axial stability while on a variety of everyday surfaces.
- ⑤ **Optional Torsion Unit**  
Helps restore lost rotational capabilities, reduce shear forces and absorb vertical shock.
- ⑥ **Optional Unity Sleeveless Vacuum**  
Helps reduce volume fluctuations and shear forces within the socket.
