

Correx SP TLSO

DCT-0464 The Trend Correx SP TLSO immobilizes and restricts mid and lower spine movement (T9- S1). Ideal for post-operative recovery, the Trend Correx SP TLSO limits forward movement during the healing period. A lightweight and highly supportive frame equipped with our tool-free TX2 ActivAdjust Sternal Kit, Breathe Thru Mesh Belt, and Moisture Wicking Lining increase wearability and patient compliance.

Guided Postural Reeducation

The Trend Correx TLSO safely assists a prolonged low load therapeutic stretch to increase spinal flexibility

Highlights

- Provides immobilization and motion restriction
- Patent-pending dual pulley system telescopes the thoracic core independently from the lumbar brace; this revolutionary mechanism secures a neutral spine alignment, and an increased low load assisted thoracic stretch
- Removeable sternal pad

Indications

- Conditions requiring gross immobilization of the thoracic and lumbar spine
- Post-surgical immobilization
- Kyphosis
- Spinal stenosis
- Herniated Disc
- Degenerative spinal fractures

Superior Post-Operative Support

Limits forward movement during the healing period to optimize recovery
