

ODYSSEY iQ®

microprocessor foot
lightweight, low-profile design
simple setup

Work smarter, not harder. The new Odyssey iQ is a hydraulically dampened microprocessor foot that is lightweight and incredibly low-profile. With an IP67 rating, long-lasting battery, and fast responses, it accommodates a wide range of users and activities. It also features simple setup and a unique method of spring-assisted dorsiflexion. Users have the option to lock the hydraulics for maximum stability in quiet standing or engage the Stance iQ mode. The Odyssey iQ was created to be user-friendly for patients and clinicians—providing access to valuable functions in College Park's Stride Studio app.
