

## REBOUND® POST-OP BRACING

Easy to fit. Easy to use.

# REBOUND® POST-OP BRACING

## EASY TO FIT. EASY TO USE.

The Rebound Post-Op Knee & Rebound Post-Op Elbow are designed with two priorities in mind: ease of fitting for practitioners and ease of use for patients.

### Simple and intuitive.

Tool-free design makes fitting fast and easy, while the numbered strapping order and color-coded patient touch points simplify patient education and product use. Just tell your patients, “Blue is You™.”

### Total control.

Use the OneTouch™ hinge to quickly and easily set patient range-of-motion. Then, secure your range-of-motion settings in place with lockout clips to further reduce the risk of patient non-compliance.

### Comfortable and secure.

Lighter than the competition, Rebound Post-op Knee and Rebound Post-Op Elbow have ergonomic paddles and contoured hinge struts that improve comfort and anatomical fit, as well as Anti-Migration Features to help ensure secure suspension.

### Something for everyone.

The Rebound Post-Op bracing series ensures you have everything you need to fit any patient you encounter. Model options include:

- Universal versions of both the knee and elbow are suitable for most users
- For the knee; Pediatric, XL or left/right Contoured model accommodates when a more anatomical fit is required

# REBOUND® POST-OP ELBOW

## Features and Benefits

- 1 OneTouch™ Drop-lock hinge
- 2 Four telescoping paddles for easy adaptability to individual post-op protocols
- 3 Strap guides keep straps in place
- 4 Moldable stability cuffs promote user comfort
- 5 Blue is You™ - color-coded buckles and drop lock for easy patient education and product use

# REBOUND® POST-OP KNEE

## Features and Benefits

- 1 Large buckles feature hook closures and grip-friendly ridges for simple brace application and removal
- 2 Numbered frame for patient ease-of-use
- 3 Blue is You™ - Color-coded drop lock and buckles for easy patient education and product use
- 4 Lock-out ROM pull tabs offer - 10° to 120° of ROM control, with OneTouch™ drop-lock from - 10° to 30°
- 5 Anti-Migration System wrap for secure suspension
- 6 Quick-fit buckle with a lever arm helps ensure optimal strap tension and brace suspension
- 7 Telescoping frame features easy-to-engage OneTouch™ button with secure locking feature
- 8 Alligator strap tabs enable easy strap trimming
- 9 Moldable, anatomically contoured struts help ensure a precise fit

## CONTINUUM OF CARE

Össur offers a breadth of Injury Solutions that follow a recommended continuum of care model. After knee injury or surgery, protect and treat by restricting range-of-motion with the Rebound® Post-Op Knee, while managing pain with Össur cold therapy solutions. In some cases, rehab with a Functional Healing solution may be necessary, such as with the Rebound® ACL or Rebound® Cartilage. Finally, return to pre-injury activity with CTi® Mission or Rebound® DUAL. Choose Össur products as rehabilitation progresses to follow the Össur Continuum of Care.

## ORDERING INFORMATION

### REBOUND POST-OP KNEE

Size	Thigh Circumference*	Telescoping	Cool	Full Foam
Pediatric	12"-25" (30.5cm - 63.5cm)	15.5"-21.5" (39.5 - 54.5cm)	B-8381470	N/A
Universal	16"-32" (41cm - 81cm)	18.5"-27.5" (47 - 69.5cm)	B-8381480	B-8382480
Left contoured	16"-32" (41cm - 81cm)	18.5"-27.5" (47 - 69.5cm)	B-8381680	B-8382680
Right contoured	16"-32" (41cm - 81cm)	18.5"-27.5" (47 - 69.5cm)	B-8381580	B-8382580
Universal XL	16"-38" (41cm - 96.5cm)	18.5"-27.5" (47 - 69.5cm)	B-8381490	B-8382490

\*Measurement taken at 6" (15cm) above mid-patella
