

G4

FES FOOT DROP Foot Drop System

The G4 technology is an innovative safe,

effective, durable, comfortable, self-programming, water resistant FES foot drop system. The technology comes with integrated medical grade stainless steel electrodes and a two-year warranty. You can also pay for an extended warranty that covers the device for five years.

Try before you buy

Home Trial – most patients prefer to purchase the G4 technology directly as it is a proven technology that provides a reliable clinical outcome. Some prefer to take the device home and try it first. Contact your assigned clinician and they can arrange a “home trial” of up to four weeks.

Payment Plans

To ensure technology access for all patients it may be possible to set up a payment plan. Consult with your clinician for more information.
