## GenuTrain® OA

Orthosis for compression and unloading of the knee joint.

GenuTrain OA with its innovative unloading system, relieves the lateral or medial compartment of the knee based on the 3-point principle. The unloading relief is easily adjustable with the Boa Fit-System. A low-profile and light weight design, combined with 3D AirKnit compression support, allows for unparalleled relief, joint control and all day wearing comfort.

### Indications

- Medial or lateral osteoarthritis of the knee
- Instability of the knee joint (mediolateral)
- Unicompartmental cartilage/bone lesion
- Condition after cartilage surgery and cartilage growth for necessary unilateral post-operative relief
- Following unilateral meniscal lesions
- Ahlbäck's disease (osteonecrosis)
- Osteochondrosis dissecans
- Bone bruising (bone edema of the medial condylus of the femur/tibial plateau)

\*Suggested codes are based on approved coding from PDAC as of 01/20. It is the responsibility of the provider to determine the appropriate billing code, as well as, whether the use of a product complies with medical necessity and other documentation requirements of the payer.

# The new GenuTrain® OA

## MORE ACTIVITY, LESS PAIN.

### SUCCESSFUL THERAPY DRIVEN BY HIGH PATIENT COMPLIANCE

#### INNOVATIVE UNLOADING SYSTEM

- Adjustable power-8 strap system and stabilizing hinge provide relief (3 point principle)

#### TOOL-FREE:

- Extension 0°, 15°, 30°, 45°, 60°
- Flexion 30°, 45°, 60°, 75°, 90°

#### TOOLFREE ADJUSTMENT

- Hinge automatically adjusts to leg shape (varus/valgus) and allows for flexion and extention control

#### COMPRESSION AIR KNIT

- Compression knit for improved proprioception
- Extra soft popliteal area
- Anatomically contoured for perfect fit
- Latex-free

#### EXCELLENT WEARING COMFORT

- Lightweight, low profile design
- Extra breathable 3D Airknit
- Strap free popliteal area for pressure free bending zone
- Easy and secure donning and doffing with ergonomic finger loops

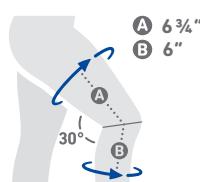

#### BOA® FIT-SYSTEM

- Easy adjustable unloading relief during activity

- Limited inventory required due to design allowing for medial and lateral OA relief
