

# GenuTrain® P3

For stabilization and  
patella control.

## Pain Relief

- **Medical-strength compression** – utilizes graduated medical compression to reduce edema, accelerate pain reduction and enhance mobility.
- **Enhanced proprioception** – GenuTrain P3 stimulates proprioception, providing improved muscle and joint control.
- **Intermittent massage** – Anatomically-designed medical silicone inserts, provides permanent massage through soft tissue stimulation while active, further enhancing pain relief and promoting faster rehabilitation.

## Wearing Comfort

3D anatomically contoured knit, assures optimal support and stability across the knee joint delivering appropriate weight bearing stress relief.

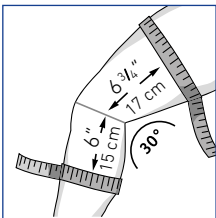

## Patient Compliance

Compliance is totally dependent on patient comfort throughout the healing process. Bauerfeind uses high-tech breathable, stretchable and moisture-dissipating textiles with an even softer knit for extra sensitive areas such as behind the knee.

Bauerfeind products are made in Germany by a team dedicated to quality, clinical effectiveness and detailed craftsmanship.
