

**NEW-AND  
IMPROVED**

## GenuTrain® A3

Active support for chronic knee pain.

For people with osteoarthritis, it is important to manage pain while also mobilizing the knee to slow the progress of the disease.

The new-and-improved GenuTrain A3 knee brace is designed for people living an active lifestyle who need support for chronic, mild to moderate knee osteoarthritis pain.

Its star-shaped patella pad with new effective zones made of a second component provide targeted stimulation to the stabilizing muscles around the inner side of the knee.

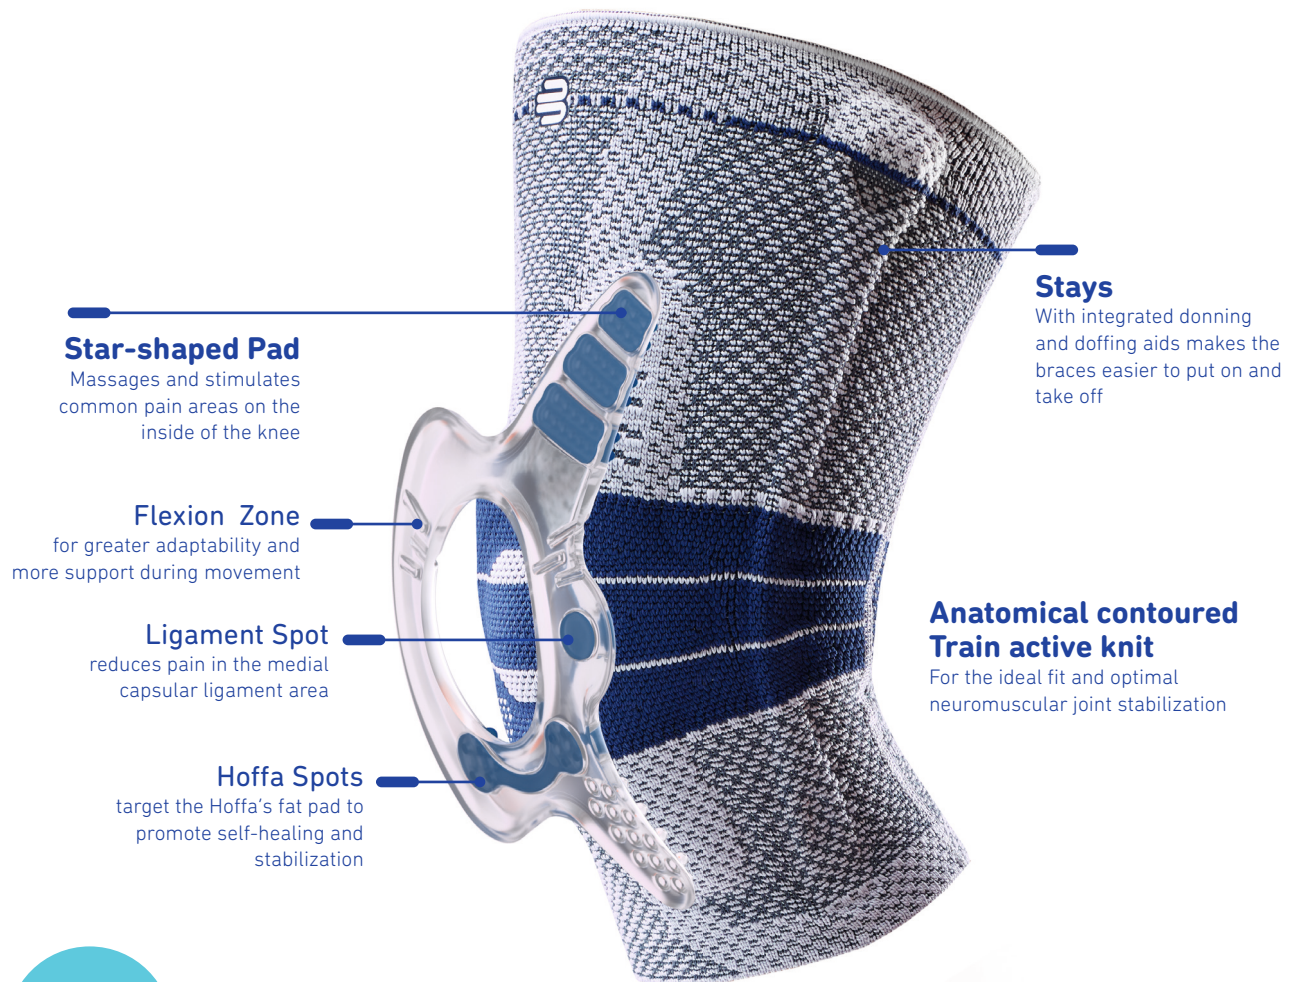

With medical-grade compression, the GenuTrain A3 promotes the reduction of swelling and the absorption of effusions. The new lighter knit allows for unparalleled relief, joint control and all day wearing comfort.

The new stays feature donning and doffing aids to make it easier to put the brace on and take it off with minimal effort.

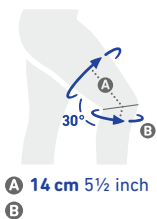

### Indications

- Mild – moderate osteoarthritis
- Medial compartment pain
- Pain and swelling
- Reduced proprioception

# GenuTrain® A3
