

Impulse® Exoskeletal Kit

This lightweight, pre-shaped ankle reduces the fabricating time when using an Impulse Foot in an exoskeletal application. A Transfer Block is required for connecting kit components to the foot plate of a vertical transfer fixture.

Patient weight limit: 250 lbs (115 kg).

Men's Impulse® Exoskeletal Kit

Size	Right	Left
22-24 cm	2LTE-1500	2LTE-1501
