

Pace Line Cosmetic Updates

A consistent design across M-Pace and L-Pace

Unified design across the Pace Line

Cosmetic changes to the M-Pace & L-Pace

From April 2026, you'll begin to see a refreshed, unified look across the M-Pace and L-Pace. This update brings the entire Pace portfolio under a consistent design while keeping the performance you expect.

No changes to device performance

- ✓ Fit, function, and clinical performance remain unchanged
- ✓ The same trusted quality and reliability

No changes to ordering

- ✓ SKUs and product codes remain the same
- ✓ No impact to your ordering process

Simple transition

- ✓ Both the previous and updated designs will be in circulation for some time
- ✓ Patients can use either version interchangeably

Trulife's commitment

At Trulife, patient safety, product quality, and clinical reliability remain our highest priorities. This design update reflects our commitment to continuous improvement while maintaining the trusted performance you expect.
