

MAUCH® KNEE

Don't be fooled by the sophisticated profile, with the extension stop, lightweight Aluminum construction and enhanced spherical bearings, the Mauch Knee is capable of withstanding the most unpredictable conditions.

- Single axis hydraulic knee system with swing and stance control (SNS®). Designed for multi-speed ambulation.
- Durable and secure motion.
- Ultra-durable Aluminum frame.
- Weight limit of 136kg (300lbs).
- Roller bearings at knee axis and cylinder attachment points for smooth action.
- Yielding stance control.
- Mode selector switch allows manual locking and free swing functions.
- Smooth profile assists with cosmetic finishing.
- Low Swing Resistance kits and High Stance Resistance kits are also available.
