KidSole's Neon Fix Orthotic Premium

- KidSole Foot Orthotics can be the perfect fix for pediatric foot and ankle instability and development. Our insoles are designed for active support, cushion and pain relief throughout the entire foot and ankle complex.
- Features a firm arch support for children suffering from flat foot issues.
- Deep heel cup for optimal control and protection of the heel during severe impact activities.
- Neon Fix is designed for support and comfort. It was designed to fit into a shoe with adequate internal depth. For use in sports footwear such as field cleats, with less internal depth, the Starry Shield Support from KidSole is a more appropriate option.
- Any child who suffers from pes planus, low ankle instability or any other undiagnosed arch support issues will benefit significantly from this insole.

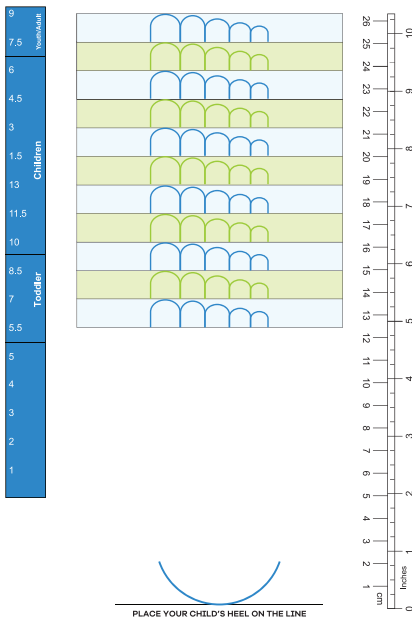

Who is ideal for this insole?

This insole was designed to provide a high level of arch support, with a moderately deep heel cup.

Any child who suffers from foot pronation, flat feet, or any other undiagnosed arch support issues will benefit significantly from this new insole.

KidSole's Orthotic insoles are the perfect fix for a young person with growing feet. Our insoles are designed to cushion the arch and provide relief to the heel and front of the foot.
