

PASO KNEE

Paso Knee is a pneumatic, polycentric knee joint. The intelligent swing phase control adapts automatically to the user’s walking speed. The four different socket connection options enable use by different amputation levels.

- Swing phase control with auto-adaptive pneumatic system
- Works straight “out of the box” – ready for use without long adjustment time
- Highly solid construction
- Different walking speed is supported up to 7 km/h.
- Powerful and smooth-running
- High knee flexion angle up to 150°

Patient Profile:	
Amputation Level:	Transfemoral, Knee Disarticulation
Impact Level:	Low to High
Maximum Patient Weight:	136kg (300lbs)

Product Information:				
	Paso Knee with pyramid	Paso Knee with IKF adapter	Paso Knee with loop adapter	Paso Knee with 3 arm adapter
Build Height (1):	215mm	230mm	207mm	205mm
Build Height (2):	158mm	174mm	168mm	166mm
Build Height (3):	18mm	33mm	27mm	27mm
Weight of Knee:	1050g	1180g	1065g	1145g
Flexion:	approx. 150°	approx. 150°	approx. 150°	approx. 150°
