RGO Hip Joint System
PDAC Verification Review

Based on petitions submitted by Ottobock to the HCPCS Workgroup requesting coding for the RGO Hip Joint System, the following codes are available for billing:

Product Name	Manufacturer	HCPCS Code	Effective Began Date
RGO Hip Joint System	Otto Bock Healthcare	L2999	01/01/2007

- To verify this information go to: https//www.dmepdac.com/dmecsapp/do/search. Scroll down to the section titled "Search DMEPOS Product Classification List." There you will find a box titled "Product Name." Enter "RGO Hip Joint" in that box and select "go".

- The practitioner or patient care facility assumes full responsibility for accurate coding as necessary when selecting patient-specific product(s) and performing patient-specific prosthetic fitting services.
