

The NEW SecuTec Genu

Reliable Therapy
Improved Compliance
Easy Handling

**NO TOOLS
NEEDED**

SecuTec Genu stabilizes the knee through a four-point principle and provides support in cases of ligament and meniscus injuries. A low-profile, lightweight, functional design ensures high patient compliance. Tool-free hinge adjustments ensure easy handling.

The new SecuTec Genu

STABILIZATION AND COMPLIANCE

**FOR SUCCESSFUL AND
SECURE THERAPY
DRIVEN BY HIGH PATIENT COMPLIANCE.**

INDICATIONS: Conservative and/or post-op care of cruciate and collateral ligament injuries, meniscus injuries and patella fractures

CAN BE RESTRICTED IN:

Flexion: 0°, 10°, 20°, 30°, 45°, 60°, 75°, 90°

Extension: 0°, 10°, 20°, 30°, 45°

Can be immobilized in: 0°, 10°, 20°, 30°, 45°

Code: L1845/K0902

CONSISTENT THERAPY

- Reproducible strap tension
- Quick fastener for easy donning and doffing

THERAPY SUCCESS

- Anti-slip
- Height adjustable calf strap allows for perfect fit on the calf muscle

PATIENT COMPLIANCE

- Easy to use
- Easy donning - frontal application
- Strap sequence easy to identify
- Convenient string bag included

FLEXIBILITY IN PATIENT CARE

- Low-profile aluminum frame is anatomically contoured and fits closely to the body

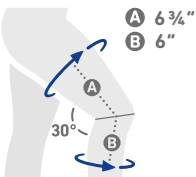

NEW PATENTED HINGE

- Easy to limit extension and flexion
- Easy identification of limitations

Now with extra strap for PCL treatment

Extra stable and lightweight aluminum frame
