

SIERRA COLD THERAPY SYSTEM™

Achieve the summit with the Sierra Cold Therapy System™

Introducing a new cold therapy system with customizable time and temperature settings. When it comes to cold therapy, not every patient is plug and play.

Our top priority is for patients to be safe, have positive outcomes, and recover as quickly as possible.

The Sierra Cold Therapy System™ follows these principles through proven technology and unique features that customize each therapy session.

Top Shelf Orthopedics™ provides high-quality products for medical professionals and the patients they care for.

The **Sierra Cold Therapy System™** reduces edema, swelling, and pain where cold therapy is indicated for post-surgical and acute injuries.

Temperature Options:

45, 50 and 55 degrees

Timed Sessions:

20, 40 and 60 minutes

Quick Start Option:

One-touch to begin therapy

Additional Features:

- Automatic Shut off
- Lockable lid to reduce spillage
- Clear cooler with visible ice and water fill labels

Pad Options:

- Shoulder
- Multi-use
- Knee
- Hip
- Ankle

QR Code for access to instructions and troubleshooting.

The Sierra Cold Therapy System must be prescribed by a physician or licensed healthcare practitioner.
