

Super Sports

Features:

- Flexible, strong, durable polyurethane elastomers. Stainless steel and aluminum support cores.
- 1/2 in. diameter threaded stud fits any USA made wrist units.
- Passive. Not cable operated.
- The polymer flexes and extends with external pressure and absorbs shock.
- Anatomically proportioned to a “cupped” hand.

Usage:

SuperSports are designed to enable two-handed performance in all types of

recreational and athletic activities, especially those in which player contact and collision can occur. Successful application can be expected in basketball, soccer, football, volleyball, skating, jogging, aerobics, dance, martial arts . . . and much more. **SuperSports** have also been used very successfully by parents in handling infants and playing with children.

Application:

Limb Length: Trans-radial and long trans-humeral limb lengths.

“L” Code: L6704

Patent 5,085,665
