

Pro Series Extend LSO

DCT-3951 The Trend Extend LSO is a technically advanced modular lumbar-sacral orthosis that stabilizes the mid to lower spine (T9- S1), providing superior posterior & lateral support & protection. Though similar to the Trend Pro LSO, the Trend Extend provides additional anterior support & motion restriction creating an optimal healing environment for pre, post, & non-operative patients.

6:1 Compression Ratio

Revolutionary Pulley System yields unmatched core compression

Highlights • Clinically tested to provide motion restriction for pre-, post-, and non-operative patients • Clinically tested to provide intracavitary compression for effective pain relief • Lightweight, low profile modular design featuring Trend TX2 Breathe Thru Mesh Belt & Moisture Wicking Lining

Indications • Conditions requiring gross immobilization of the thoracic and lumbar spine • Post-surgical immobilization • Kyphosis • Spinal stenosis • Herniated Disc • Degenerative spinal fractures

Clinically Advantageous Design

Self-adjusts to each patient's unique Lordotic curve, making it an excellent option for relieving pain and discomfort

PDAC Approved: L0639/L0651
