

Thumb easily trimmed

**Wrist-Hand-Thumb Orthosis** Anatomically shaped of low density polyethylene with closed-cell foam lining. Tongue is rigid yet comfortable for most traumatic, post-surgical, or longer term rehabilitation applications. Adjustable Velcro® straps allow for swelling and facilitate wound management. Easily trimmed with cast scissors. May be reshaped with heat gun.

- 2 socks (with thumb)
- Large thumb component
- Padded Tongue
- Perforated for ventilation
