

Natural Definition Glove

With the Natural Definition Glove, we take the prosthetic cosmetic glove to the next level. Using a dual layer PVC with added fibers and airbrush technique, the glove shows a deeper definition and more natural look. The glove is treated with a Micro-coated surface, making it more durable and stain resistant compared to standard PVC gloves. Environmentally responsible and sustainable, the PVC used is free from all heavy metals and phthalates which gives you a skin friendly and fully recyclable product.

Product Features

- Airbrushed, dual layer PVC with fibers for natural definition
- Available in 16 colors
- Micro-coated for durability, easy cleaning, and low friction against clothing
- Recyclable

Warranty

This product has a 6 month warranty against manufacturing defects

Natural Definition Guide

For your convenience, we made the Natural Definition Guide to help determine which color to choose for your patient.

The Guide consists of two color scales, R and Y (Red and Yellow). Each one has 8 different colors to choose from to cover most skin tones. To help your patient choose the best color, start with the color scale that most closely resembles their natural skin tone. For example, if the patient has a pinkish hue to their skin, then start with the colors on the R scale.
