Re: Bariatric Quad Canes (Models MDS86222XW, MDS86228XW)

Dear Mr. Jacobs:

This letter is in response to your recent inquiry for coding verification of the above listed product(s) manufactured by your company. The Statistical Analysis Durable Medical Equipment Regional Carrier (SADMERC) has reviewed the documentation and information submitted for HCPCS Coding. The SADMERC conducts reviews of products to determine the correct HCPCS code(s) of DMEPOS product(s) for Medicare billing.

It is our determination that the Medicare HCPCS code(s) to bill the four Durable Medical Equipment Regional Carriers (DMERCs) is/are:

E0105 Cane, quad or three prong, includes canes of all materials, adjustable or fixed, with tips.

This HCPCS coding decision applies to submitted product(s) as presented to and reviewed by the SADMERC. Any modifications to the product(s) could change the HCPCS code and would need to be reviewed for coding verification. The assignment of a HCPCS code to the product(s) should in no way be construed as an approval or endorsement of the product(s) by SADMERC or Medicare, nor does it imply or guarantee claim reimbursement or coverage. For questions regarding claim coverage or reimbursement please contact your regional DMERC.

Should you disagree with this coding decision, a re-review of the product(s) can be initiated. The SADMERC will provide a re-review if the request is made within 45 days of the date of this letter and additional documentation is provided supporting the request. If a request for a re-review is made after 45 days, the request is treated as a new Coding Verification Review and a complete application must be submitted along with the additional documentation supporting the request.

Dear Mr. Torrance:

The SADMERC and the four Durable Medical Equipment Regional Carriers (DMERCs) completed the HCPCS Coding Verification Review for the above listed products. This review resulted in a consensus coding decision.

It is our determination that the Excel (MDS806100, MDS806150, MDS806200, MDS806250, MDS806300), Excel Narrow (MDS806150N, MDS806200N, MDS806250N, MDS806300N), and Excel 2000 (MDS806100D, MDS806150D, MDS806200D, MDS806250D, MDS806300D) meet the description and characteristics of the HCPCS code for a standard wheelchair as defined in the DMERC Medical Policy for Manual Wheelchair Bases. Therefore, the correct Medicare billing code for these products is

K0001 Standard wheelchair.

It is our determination that the Excel Lightweight (MDS806600, MDS806650) meets the description and characteristics of the HCPCS code for a lightweight wheelchair as defined in the DMERC Medical Policy for Manual Wheelchair Bases. Therefore, the correct Medicare billing code for this product is

K0003 Lightweight wheelchair.

It is our determination that the Excel K4 (MDS806500, MDS806550) meets the description and characteristics of the HCPCS code for a high strength, lightweight wheelchair as defined in the DMERC Medical Policy for Manual Wheelchair Bases. Therefore, the correct Medicare billing code for this product is

K0004 High strength, lightweight wheelchair.

It is our determination that the Excel Extra Wide (MDS806700, MDS806750, MDS806800, MDS806850) and Shuttle (MDS809500, MDS809525, MDS809550, MDS809575) meet the description and characteristics of the HCPCS code for an extra heavy duty wheelchair as defined in the DMERC Medical Policy for Manual Wheelchair Bases. Therefore, the correct Medicare billing code for these products is

K0007 Extra heavy duty wheelchair.

This HCPCS coding decision applies to your products as they were presented to and reviewed by the SADMERC. Any modifications to these products could change the HCPCS code and need to be reviewed for coding verification. The assignment of a HCPCS code to these products should in no way be construed as an approval or endorsement of these products by SADMERC or Medicare.

If you have any questions regarding this coding decision, please contact Mary Pinkston, HCPCS Analyst at the address below or by telephone at (803) 788-0222, extension 38215.

Sincerely,
