USA

1. Loosen all of the straps.

2. While sitting or standing, slide your foot through the top of the brace and pull the brace up the leg until the patella is centered in the patella cutout.

3. Tension the strap below the patella and fasten securely. Repeat with the strap above the patella.

4. Tension the "flap" below the patella and fasten securely. Repeat with the "flap" above the patella.

5. Walk around. Adjust the strap tension as needed. Ensure that the patella is centered.

### Adjusting the Strap Length

*The length of the straps may be adjusted if they are too long.*

6. Remove the "alligator tab" from the end of the strap by peeling the Velcro.
7. Using scissors, cut the strap to the desired length and reattach the "alligator tab" to the end of the strap. Apply brace as described above.
