

AFO LEAF SPRING

AFO Leaf Spring is a pre-fabricated polypropylene ankle-foot orthosis designed to support flaccid drop foot. It provides a semi-rigid section for toe clearance and support, yet has a thin, flexible foot plate for easy trimming. The absence of a heel section makes the Leaf Spring more comfortable to wear and provides a better fit in shoes.

INDICATIONS & USAGE

- Drop foot secondary to CVA
- Mild drop foot secondary to other neurological pathologies

FEATURES & BENEFITS

- Injection-molded polypropylene is lightweight
- Variable thickness throughout the orthosis provides strength
- Provides good toe clearance and support
- Thin, flexible foot part is easy to trim with a pair of scissors
- Excellent fit for most types of shoes
- Absence of heel section for improved comfort

PART#	HEIGHT	LEG	SIZE
O-110127	10.75" (27cm)	Right	Small/Medium
O-110227	10.75" (27cm)	Left	Small/Medium
O-110130	12" (30cm)	Right	Large
O-110230	12" (30cm)	Left	Large

FOOT-UP

Foot-up is a lightweight ankle-foot orthosis that offers dynamic support for drop foot or similar complaints. This revolutionary orthosis provides visible improvement in gait by supporting the foot the moment it is raised.

INDICATIONS & USAGE

- Dynamic support for drop foot or similar complaints for which support of dorsiflexion is desirable

FEATURES & BENEFITS

- Cushioned ankle wrap is made from a breathable, 3-layer material that can be worn comfortably for long periods of time
- Plastic inlay fits discreetly between the tongue and laces of the shoe and is practically invisible when worn

OSSUR IS ANKLE-FOOT ORTHOSES

Life Without Limitations

AFO DYNAMIC

AFO Dynamic incorporates Ossur *Flex-Foot® technology* and the energy storing properties of carbon fiber. The result is a strong, lightweight solution for people with varying degrees of drop foot.

INDICATIONS & USAGE

- Drop foot secondary to CVA, MS, Charcot Marie Tooth disease, other neurological conditions, or mild knee instability
- Contra-indicated for severe ankle-foot deformities, severe spasticity, or fluctuation edema
- Suggested weight range: up to 265 lbs (120kg)
- **Suggested L-Code: 1932**

FEATURES & BENEFITS

- Carbon fiber design provides excellent strength-to-weight ratio and dynamic motion
- The tapered carbon heel stores energy and manages forces at heel strike
- Full-length toe lever provides full support while foot is loaded, as well as reduced shock to the contralateral limb
- Controlled plantar flexion at initial contact
- Creates M-L stability at mid-stance
- Reduces energy consumption by reducing hip hike
- Medial strut makes it less visible in shoe
- Open anterior tibia shell provides superior anatomical fit, and reduces heat and perspiration

AFO LIGHT

AFO Light provides support only where it is needed, eliminating unnecessary bulk and providing a cosmetically-appealing look. Using the best of Flex-Foot® technology and the energy storing properties of carbon fiber, AFO Light offers a strong and lightweight solution for people with mild to moderate drop foot.

INDICATIONS & USAGE

- Mild to moderate drop foot
- Contra-indicated for severe ankle-foot deformities, severe spasticity, fluctuation edema, M-L instability, or extreme activity
- Suggested weight range: up to 220 lbs (100kg)

FEATURES & BENEFITS

- Energy return and propulsion assistance of the limb at toe off
- Supports the foot for ground clearance during swing phase
- Carbon fiber design provides excellent strength-to-weight ratio and dynamic motion
- Gradual plantar flexion at initial contact
- Stiffness gradient at the heel and the toe correspond to ground reaction forces as they are applied to the foot
- Easy to don and doff
