

A/K SHRINKERS

COMPRESSOGRIP® A/K SHRINKERS

The new Compressogrip A/K for transfemoral applications provides the same advantages you have always enjoyed with the original Compressogrip Shrinker: clinically effective, easy to use and apply, lower cost than traditional shrinkers, fewer sizes fit more patients – easy and affordable to keep on hand for same day delivery.

The fabric used for these shrinkers is circular knit with increased power in the elastic, producing a heavier fabric than that used for B/K Compressogrip shrinkers. Multi-directional stretch for improved fitting qualities and a universal waist belt. Available in standard white Compressogrip and with X-Static® – The Silver Fiber®.

This fabric gives 25-30 mmHg compression at 50% stretch.

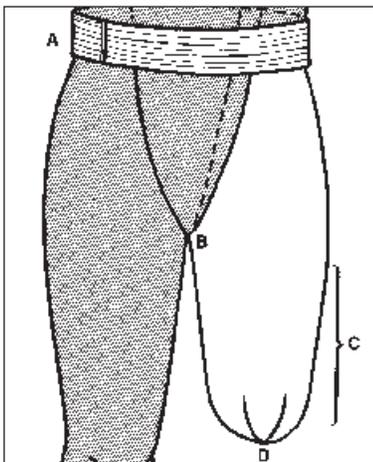

WHITE	X-STATIC	SIZE	FITS CIRCUMFERENCE		FLAT WIDTH
2H-OS05-XS	2H-0X05-XS	X-Small	12 – 17"	30 – 43 cm	5"
2H-OS06-SM	2H-0X06-SM	Small	15 – 20"	38 – 50 cm	6"
2H-OS07-MD	2H-0X07-MD	Medium	18 – 24"	45 – 60 cm	7.5"
2H-OS09-LG	2H-0X09-LG	Large	24 – 32"	60 – 80 cm	9"

6W-7322-30 — Auxiliary Suspension Laces, Sold 12 per package

Patent pending.

3-DIMENSIONAL A/K SHRINKER – Standard Sizes

Easy to adjust, hook and pile, elongate side opening waist band, adaptable for left or right amputation.

Optional auxiliary support for proximal edge at groin can be attached at any point on waist band or easily detached and removed.

Tapered design for gradient pressure; heavy or medium pressure available.

Superior 3-dimensional support and shaping of distal end; garment length from groin to distal end should be one to two inches shorter than actual measurement so that proper snugging of distal end will not result in roll at groin.
