

## **COVER SHEETS**

Item numbers in red are in stock for immediate shipment

**Top Cover Sheets** are often used as an additional layer to protect the foot from underlying materials. Top covers add an aesthetic value to a custom orthotic.

**Bottom Cover Sheets** are primarily used as a protective barrier between the orthotic and the patient's shoe. Their main function is to increase the life of the orthoses.

**Vinyl:** A popular top cover material that is available in three colors, blends in with the shoe and is smooth on the foot.

Coronet is a luxurious, imported Italian suede-like microfiber fabric with many possible uses. It has a very high abrasion and tear strength resistance. Acor carries Coronet sheets in Black.

**CORDURA**° fabric is used by retailers and militaries around the world when they need to make a product that's durable, versatile and tear-resistant. It is great for bottom covers.

**DuraSuede** is a luxurious, suede-like microfiber fabric with many possible uses. It is resistant to abrasions, wears well and isn't affected by moisture or water. Acor carries sheets and rolls in black.
