

Here's a new, pain relief solution for your patients with hammer toes!

The Protocrest® is a patented Toe Crest & Toe Cap combination, and an exciting development for patients with contracted toes – hammer, claw, mallet deformities and more that cause toe tip and PIP irritation.

The contoured sulcus pad lifts and supports toes and toe tips to relieve distal friction, and engages bent-under toes in ambulation to make walking easier, too.

The integrated Toe Cap protects both toe tips and toe tops from shoe pressure. If preferred, the Cap's end can be trimmed away, leaving just a tube. The Crest can also be customized.

Either way, circulation restriction concerns caused by elastic or Gel loops are reduced!

And together, the Crest and Cap provide unmatched relief for toe pain sufferers!

*Now available in Small, Medium and Large sizes, Right or Left – 6 varieties in total. But note that the Small size is best reserved for very small feet, or use on lesser toes. Medium fits most if you want to stock only one size!*

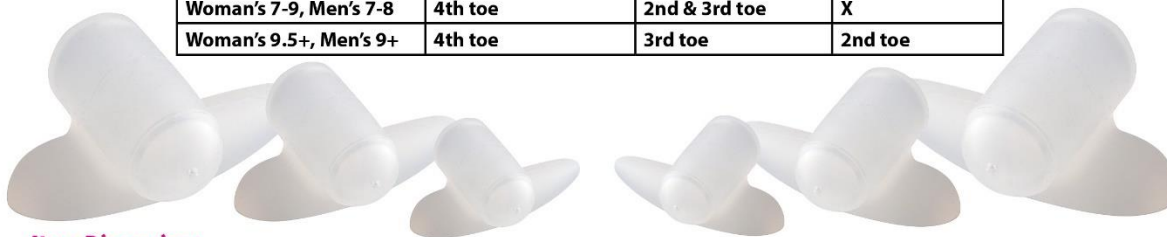

Dispense from your practice for best outcomes, patient compliance and convenience. Or enable patient direct purchases at [www.pedifix.com](http://www.pedifix.com) if you can't, or don't want to carry them in your office.

These are NOT available on Amazon.com. NOT YET available through our nationwide independent retailer network. So there are only two ways your patients can get them – from you, or directly from PediFix.

Please let me know what you think about this new design? Email: [Christopher.case@pedifix.com](mailto:Christopher.case@pedifix.com)

#### Size Chart

Shoe Sizes	Small	Medium	Large
Woman's 5-6.5	3rd & 4th toe	2nd toe	X
Woman's 7-9, Men's 7-8	4th toe	2nd & 3rd toe	X
