

# PROACTIVE WEAR®

## Universal Post-Op Knee

The ProActive Wear® Universal Post-Op Knee is designed to immobilize and control range of motion of the knee following an injury or surgery. The universal brace features easy to adjust telescoping locks and trimmable straps for an optimized fit.

- Hinge locks in all increments with drop lock pin or flexion / extension sliding stops
- Hinge adjusts from -10 to 120 degrees of flexion
- 18" to 27" length to accommodate various anatomies
- Removable, washable liners and pads

• PDAC Approved:  
L1832 and L1833
