

VST-30 VerSiTal

VERSILTAL SILICONE ELASTOMER-30

VST-30 is a silicone elastomer which works well with a thixotropic agent to adjust the low viscosity of 13,000 cps to a non-flow, non-slumping 500,000 cps. This material can be used for numerous applications. Setting time: 20 minutes.

Recommended Uses: Quick molds, Testing, Ultra-fast duplication

Fast Cure:

1lb Kit

1gal Kit

5gal Kit

TYPICAL CURED PROPERTIES

Durometer Shore A 23

Tensile Strength (psi) 985

Tear Strength (ppi) 100

Elongation (%) 610

Viscosity cps 13,000

Works well with Thixo (A-300-8)
