

Volara 4E 100ft Rolls

Volara 4E is the workhorse foam in O&P. In all characteristics it is just like Aliplast, with a different name. It is auto-adhesive; meaning at temp. it will stick to its self without the use of glues. It has a low molding temp of 275 degrees F.

Item:	Description:
4E18	1/8"x30"x150ft roll
4E36	3/16"x30"x100ft roll
4E14	1/4"x30"x100ft roll

Transtibial Cosmetic Foam Block

Our foam block is an exact copy in both feel and look as the other foams currently on the market. Our foam is designed to have balance in compression and bounce back for realistic feel. Resists compression and flat-out when using high compression pull-on skins.

Item:	Description:
TT100	6"x6"x18" -30mm hole

Transtibial Cosmetic Foam Sheet

Our foam sheet products are an exact copy in both feel and look as the other foams currently on the market. Sheet foam is designed to have balance in compression and bounce back for realistic feel, though it is slightly softer and more formable than the block foam. Use this foam when shaping carbon composite feet with odd shapes.

Item:	Description:
TT200	1.5"X18"X18" Foam Sheet
