a great o

ESP offers several cost effective suspension sleeve options that are comfortable, durable, and provide a secure connection of the prosthesis to the limb.

Our pre-flexed sleeve options include the FlexiSleeve™, FlexiSport™ and FlexiKids™. These anatomically shaped sleeves are perfect for mechanical as well as standard (passive) suction suspension with use of a suction valve.

The Seal-Tite™ sleeve is our gel option that is perfect for all suspension sleeve applications, including vacuum.
