GK ORIGIN

PROVIDES SUPPORT, STABILITY, COMPRESSION AND PAIN RELIEF

5640 GK ORIGIN

The patella sling and "U" buttress lift and control the patella with an inferior to superior directional pull. This places the patella in a more natural position and helps patients move with more stability and less pain.

Fits Real Patients!

The adjustable calf allows the brace to be fit on a conical shaped leg. Accommodating a wide range of patients is now easier.

BREATHABLE NEOPRENE AND
BUILT IN CONDYLE PAD
