

# GLIDE WEAR<sup>®</sup> by Tamarack

## SHEAR PROTECTION UNDERWEAR

PART #

GW-UND MEN'S

MADE IN MINNESOTA ★ U.S.A. ★

- Dual-layer GlideWear<sup>®</sup> fabric is strategically incorporated into the garment design to reduce friction and shear forces around sensitive tissue and bony prominences
- Designed for male wheelchair users with unique skin protection and comfort needs
- Features catheter access panel, wider waistband, and other wheelchair user-specific requirements
- When worn all day & night, GlideWear<sup>®</sup> Underwear provides continuous protection against skin breakdown

### 1-1/2" Wide Waistband

Helps to prevent the underwear from slipping down

### Front Panel Fabric

Features Chitosante<sup>®</sup> treatment, providing antimicrobial and moisture-wicking properties

### Long Thigh Cuff

Prevents unwanted garment shift during transfers

### Higher Back Panel

Provides greater coverage than traditional undergarments

### Catheter Access Flap

Designed specifically for convenient access for catheter users

### GlideWear<sup>®</sup> Low Friction Fabric

Protects against friction and shear-induced soft tissue and skin damage

Available sizes:  
S – 3XL
