

COMPRESSOGRIP PROSTHETIC SHRINKER

Now available with facility logo! See pg. 55!

U.S. Patent No. 7,575,561

COMPRESSOGRIP® A/K SHRINKER

The Compressogrip A/K for transfemoral applications is clinically effective and easy to use and apply. It is lower cost than traditional shrinkers — fewer sizes fit more patients. Easy and affordable to keep on hand for same day delivery. The fabric used for these shrinkers is circular knit with increased power in the elastic, producing a heavier fabric than that used for B/K Compressogrip shrinkers. Multi-directional stretch for improved fitting qualities and a universal waist belt. Available in standard white Compressogrip and silver X-STATIC®.

For custom logo shrinkers, see pg.55, or ask customer service or your distributor for program details.

WHITE	X-STATIC	SIZE	FITS CIRCUMFERENCE	FLAT WIDTH
2H-OS05-XS	2H-0X05-XS	X-Small	12"-17" (30-43cm)	5"
2H-OS06-SM	2H-0X06-SM	Small	15"-20" (38-50cm)	6"
2H-OS07-MD	2H-0X07-MD	Medium	18"-24" (45-60cm)	7.50"
2H-OS09-LG*	2H-0X09-LG*	Large	24"-32" (60-80cm)	9"
2H-OS09-L2	2H-0X09-L2	Large	24"-32" (60-80cm)	9"
2H-GS05-XS (WITH GUSSET)	—	X-Small	12"-17" (30-43cm)	5"
2H-GS06-SM (WITH GUSSET)	—	Small	15"-20" (38-50cm)	6"
2H-GS07-MD (WITH GUSSET)	—	Medium	18"-24" (45-60cm)	7.50"
2H-GS09-LG* (WITH GUSSET)	—	Large	24"-32" (60-80cm)	9"
2H-GS09-L2 (WITH GUSSET)	—	Large	24"-32" (60-80cm)	9"
2H-GS10-XL (WITH GUSSET)*	—	X-Large	30"-40" (76-102cm)	10.5"

*Garment features a 4" waist belt

Gusset is a non-compressive 1-ply fabric at medial aspect of transfemoral limb close to the groin.

25-30mmHg Compression / 50% Stretch

SHRINKER DONNING TUBE

The Donning Tube is the essential tool for application of shrinkers on the sensitive limb. Also great for physical and occupational therapist for training and reapplication of Compressogrip shrinkers. By loading the shrinker onto the tube and then sliding onto the limb one person can apply compression pain free.

- 6S-TUBE-06 6" Donning Tube
- 6S-TUBE-08 8" Donning Tube

How to use the Donning Tube:

1.

2.

3.

POST-OP DRESSING RETENTION SOCK

POST-OP DRESSING RETENTION SOCK

Utilizes a very light compression fit, with a belt suspension to cover and retain postoperative dressings for trans-femoral amputees. Surgeons often want to limit compression therapy, while still needing to retain postoperative dressings. In the past, many methods have been used, (tape, glue, netting, loose fitted elastic wraps) all with limited success. To solve this problem we have created the Dressing Retention Sock. Designed on the model of our popular Compressogrip AK Shrinker and works well in a progressive approach. Very soft Lycra® and CoolMax® body for very low compression. Universal right or left belt system to maintain secure suspension. Great tool for developing relationships with your physicians. Aids in retaining surgical dressing in place—particularly with obese patients. Can be used for AK or BK. Can be used over dressing and then use an ace bandage over the top to apply "controlled" compression. Does not irritate or stress sutures during donning. Does not compromise peripheral circulation in marginal bypass vascular grafts; at times limited compression is desired for the first week or so. Can be used in combination with removable rigid dressings. Trains patients in sock management. Helps assess patient compliance with future pre-prosthetic regimens. Low cost. Little staff training required at hospital. Gets patient into the prosthetic services earlier.

	SIZE	FITS CIRCUMFERENCE	LENGTH
1R-P104-28	4" Post Op Sock	10"-12" (25-30cm)	28"
1R-P106-32	6" Post Op Sock	14"-18" (35-45cm)	32"
1R-P108-32	8" Post Op Sock	18"-24" (40-60cm)	32"

LOWER EXTREMITY DRESSING RETENTION AND COMPRESSION GARMENT

Compression support for post-op lower extremity situations, such as knee and hip replacement surgeries. Provides 25-30mmHg at 50% stretch with the greatest amount of comfort. This garment is designed to contour and fit the upper thigh just like our AK Compressogrip Shrinkers, and is in a class by itself for the heavy patients with thigh circumferences above 22", accommodating up to 40". It is much easier to don than compression stockings providing compression over the lower extremities with a universal waist belt that keeps the garment from slipping down. It is also much easier to don and accommodative for compression over bandages as a retainer. Superior upper thigh fit with great wicking and anti-microbial/anti-odor X-STATIC® properties. X-STATIC® – The Silver Fiber® is a high performance fiber system made with pure silver. Silver is naturally antimicrobial, to help inhibit odor in the garment. Silver also has the best possible thermodynamic properties, so you stay cooler in the summer and warmer in winter. This multi-directional garment can also be used as an interface for KAFO and hip orthoses where compression is needed. Machine wash and dry. Latex free materials. Developed by Ray Fikes, CPO.

SIZE	REGULAR	SHORT	Size	Ankle	Calf	Thigh
Small	2HKX-00-SM	2HKX-0S-MS	Small	4"-7" (10-18cm)	8"-14" (20-36cm)	13"-18" (33-46cm)
