

## MIAMI J<sup>®</sup> FAMILY

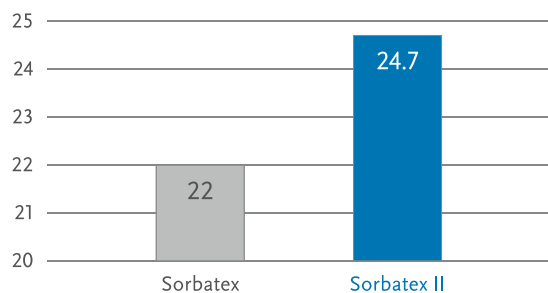

The best just got better

## INTRODUCING: SORBATEX™ II

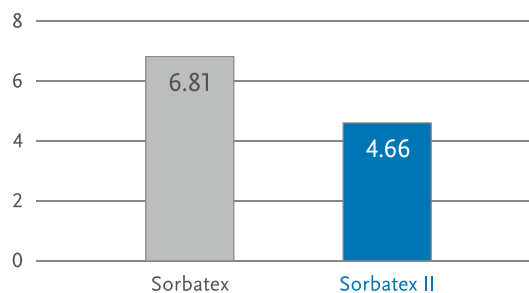

For years, Sorbatex padding has proven superior to cotton pads in performance and patient protection. Now, new textiles have exceeded our already tough standards, and our new Sorbatex II performs even better than before:

### AIR PERMEABILITY

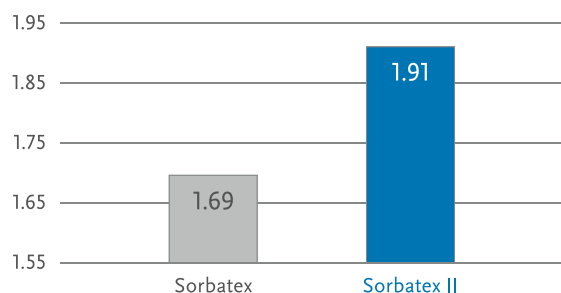

Sorbatex 2 has 12% greater air permeability

### ABSORPTION SPEED

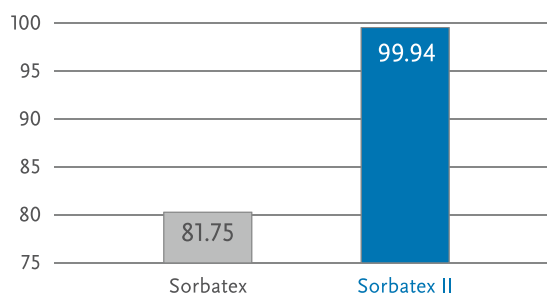

Sorbatex 2 manages moisture with a 46% decrease in top wetting time

### THERMAL RESISTANCE

Sorbatex 2 stays just as cool

### ANTI-BACTERIAL

Sorbatex 2 has advanced anti-microbial treatment

## NEW PADS – SAME COMFORT

The Miami J® and Miami Jr® collars have both been upgraded with a new sternal pad. The new pad functions exactly the same as the old one, but with a lower profile, more streamlined design. Let your patient experience the comfort, support and protection that is the Miami J cervical collar.

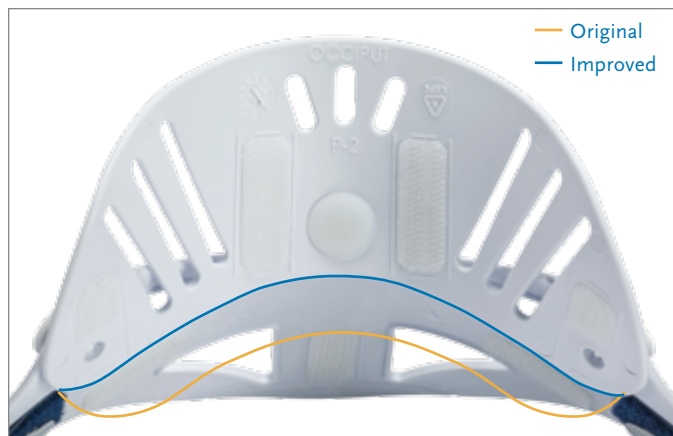

# MIAMI JR – THE ONLY COLLAR THAT ADDRESSES UNIQUE PEDIATRIC ALIGNMENT AND AIRWAY CHANGES

Pediatric c-spine care is distinct from adult care. The reason is basic –children are built differently. The Miami Jr. is an innovative collar designed exclusively for children 12 and under. Now, the Miami Jr. offers even more protection for post-surgical incision sites with a new and improved shape.

MIAMI JR – P1

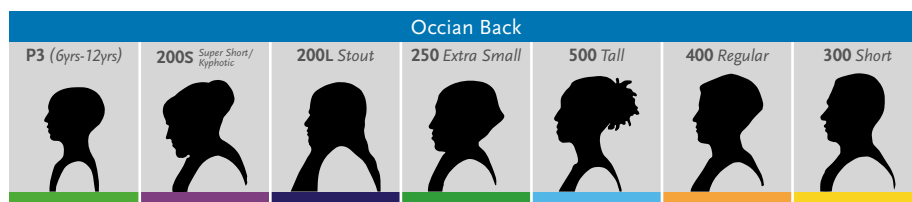

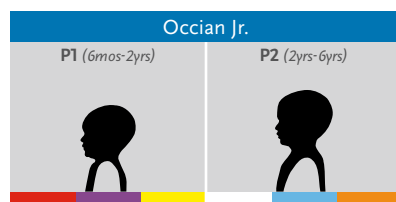

MIAMI JR – P2

## OCCIAN® BACK AND NEW OCCIAN JR!

The Occian Back is specifically engineered exclusively for the specialized needs of the multi-system trauma patient in the ICU. Universally-sized and designed with advanced IntuiTech™ pressure-relieving memory foam, the Occian Back helps caregivers manage c-spine patients who are at high risk of occipital breakdown.

Now, for the first time, Össur is pleased to announce the Occian Jr. Designed to be used with the P-1 and P-2 collars, the Occian Jr. provides the same level of care and protection as the Occian Back, but now for the smallest patients.
