

# DYNAMIC WALK

from Centri

The Dynamic Walk is an AFO made of a lightweight moldable carbon fiber composite material. The open heel construction allows for optimal fit and comfort with various shoe types. The Dynamic Walk provides dorsi-assist with subtalar inversion and eversion control. This high activity design enables freedom of motion and allows for walking, running, and climbing stairs.

## CARE & USE

To reshape, spot heat the carbon fiber with a heat gun up to 250° F (higher temperatures will cause delamination). Do not heat or reshape the PEEK rods or the carbon fiber PEEK attachments. Washable Lycra padding and polyester is available separately. Select a low-top, laced shoe with a firm heel and removable insole. Make sure to place the foot plate under the insole in the shoe.
