

Constructed with a layer of diamonds around the diameter of the blade instead of teeth, diamond blades have greater durability and cut faster than traditional steel blades. Diamond grit rasps are available in fine and coarse. Diamond grit cones are available in fine, coarse and dual (fine at one end and coarse at the opposite end) in three sizes.

Standard Saw Blade

2-1/2" with universal hub or 3" with round hub.

Order No.

SBUH-25 2-1/2"
SBRH-30 3"
