

Swift

A timely & personal fit.

Individualized, custom fabricated, carbon AFOs. Swift allows clinicians to address tri-planar instability with unmatched urgency.

Built for efficiency.

Say goodbye to shipping and long backlogs without compromising on quality. Swift is fully fabricated in the clinic, with unmatched urgency.

No special tools.

The Swift System™ allows for custom fabrication without the need for heavy equipment. Thermoform right off the rectified cast.

Choose carbon.

The lighter, more dynamic, and durable material of choice for users requiring tri-planar control.

Tools needed	Heat gun, shears, handheld grinder
HelixBand compatability	Comes standard with HelixBand for dynamic tri-planar control
Weight Limit	275 lbs
2-Year Warranty	Best-in-industry guarantee on all carbon fiber and soft goods

Swift Posterior

Recommended for
L1950, L2280, L2820, L2270

Product Numbers

EAP-0034 -- Swift, Posterior, Right
EAP-0044 -- Swift, Posterior, Left

Swift Anterior

Recommended for
L1945, L2755 (x2), L2280, L2820, L2270

Product Numbers

EAP-0134 -- Swift, Anterior, Right
EAP-0144 -- Swift, Anterior, Left
