

Extension Adapters

When additional height is needed in a prosthesis, extension adapters can be valuable components. Available in various heights, extension adapters are offered with pyramids and receivers.

HEIGHT EXTENSION ADAPTERS

Great for use with Fusion or DuraLite™ Feet.

Height Extension Adapters are ideal for when additional height is needed in a prosthesis. Applications may include adding height when a shank-style foot is trimmed or when other components are no longer desired in a prosthesis. Available in 24 mm and 46 mm. The titanium adapters have a pyramid on one end and pyramid receiver on the other.
