**QuikDraw™ RAP**

**Contour™ LSO**

**Contour™ TLSO**  
with Chest Panel

**Contour™ TLSO**  
with Shoulder Straps

**Contour™ TLSO**  
with SPK

## Introducing the Contour™ Bracing System

**T**he Contour™ Bracing System by Aspen® provides multiple orthotic options in one system, minimizing stocking requirements. The customized compression of the QuikDraw™ PRO, the additional support of the Contour™ LSO, and the increased stability of the Contour™ TLSO combine to provide a comfortable, economic and effective solution.

The Contour™ System is easy to use for the patient, as well as the provider. The system is highly adjustable, fitting the vast majority of patient anatomies with limited pieces and parts. The Contour™ System is modular, streamlining the idea of using one system to fit patients with varying diagnoses.

- Easy to Use
- Adjustable
- Minimal Inventory
- Progression of Patient Care

# **QUIKDRAW™**

Pain Relief Orthosis  
*with Rigid Anterior Panel*

**Independent Upper and Lower Compression**

The QuikDraw RAP increases spinal stability and is designed to provide immediate pain relief to quickly restore functional mobility. The mechanically-advantaged SlickTrack™ tightening mechanism allows all patients to easily control upper and lower tightening, applying localized therapy directly to the lumbar region.

**Also Available in White**

**QuikDraw™ RAP**

**L0627**  
**Code Approved**

**Contour Customizer Available for  
Additional Lordotic Support**

By adding a Contour Back Panel, the QuikDraw RAP easily upgrades to a Contour LSO for additional posterior support. The Contour LSO is adjustable allowing the practitioner to fit the vast majority of patients with minimal inventory. The Contour LSO is comfortable which in turn leads to better patient compliance.

**Contour™ LSO**

**L0637  
Code Approved**

Shoulder Straps Only

SPK Upgrade

The Contour TLSO completes the system by providing superior motion restriction for the thoracic and lumbar regions of the spine. The Contour TLSO comes in three different configurations allowing the practitioner to appropriately fit each patient.

**Contour™ TLSO**  
with Shoulder Straps and Chest Panel

**L0464**  
**Code Approved**
