

The codes Bird & Cronin are supplying are suggested code for Medicare billing purposes. Bird and Cronin does not take part in the billing process. It is the caregiver's responsibility to determine if the billing code actually applies to the treatment provided. The billing code is primarily a function of the patient's diagnosis, not the products used to treat the patient. Bird and Cronin is providing this information as a courtesy for possible billing code applicability. Codes presented as **bold** on this list are PDAC approved and supporting letters can be found on this website under Customer Care/PDAC letters.

The codes Bird & Cronin are supplying are suggested code for Medicare billing purposes. Bird and Cronin does not take part in the billing process. It is the caregiver's responsibility to determine if the billing code actually applies to the treatment provided. The billing code is primarily a function of the patient's diagnosis, not the products used to treat the patient. Bird and Cronin is providing this information as a courtesy for possible billing code applicability. Codes presented as **bold** on this list are PDAC approved and supporting letters can be found on this website under Customer Care/PDAC letters.

The codes Bird & Cronin are supplying are suggested code for Medicare billing purposes. Bird and Cronin does not take part in the billing process. It is the caregiver's responsibility to determine if the billing code actually applies to the treatment provided. The billing code is primarily a function of the patient's diagnosis, not the products used to treat the patient. Bird and Cronin is providing this information as a courtesy for possible billing code applicability. Codes presented as **bold** on this list are PDAC approved and supporting letters can be found on this website under Customer Care/PDAC letters.
