

The Hely & Weber  
**Global Knee™**  
 ADDRESSES PAIN, IMPROVES LIVES

Surgery is often delayed for Bi & Tricompartmental OA patients:  
*Conservative care guidelines, patient logistical needs,  
 necessary medical and behavioral improvements  
 and the emotional readiness of the patient often cause delays.*

The Global OA addresses patient pain, provides stability and  
 assists in mobility, helping patients through these times.

**Hybrid Wrap Around Format**  
 Closed calf section with a wrap  
 around thigh section allows  
 patients to adjust the size of  
 the thigh to accommodate  
 changes in girth.

**Soft, Comfortable  
 Condyle Pads**  
 Soft, oversized Comfort  
 Foam pads accommodate  
 the inflamed bulbous knee.

**Thin Removable Trakaderm™  
 "U" Buttress**  
 This is a "positional buttress"  
 which can be adjusted for each  
 individual patient's need. In  
 addition it can be removed if not  
 required as a therapeutic modality.

**Patella Sling**  
 The "Sling" allows for  
 directional control of the patella  
 and offers a slight tilt adjustment.

View from inside of brace reveals extraordinary  
 craftsmanship and attention to detail.

Our "Patella Sling" controls the  
 patella with an inferior to superior  
 directional pull.

**Introducing  
 our Dynamic  
 Patella Sling**

*By controlling the  
 patella in a more  
 natural position in  
 the superior femoral  
 groove, patients can  
 now manage end range  
 gait and are able to  
 propel up and down  
 stairs with less pain  
 and more stability.*

**Soft Durable Lycra  
 Pre-Formed  
 Popliteal Panel**

*A thin, soft fabric in the  
 popliteal area provides  
 more comfort and  
 compression. This results  
 in less skin irritation, an  
 overall better fit, edema  
 control and higher  
 patient compliance.*

Functional knee stability  
patients haven't seen in years!

Reinforced hinge pockets provide durability and double as a built in pull up assist.

Constructed of breathable lycra urethane laminate and spacer fabric.

The ROM hinges are slightly offset to accommodate inflamed bulbous knees.

Bending and adjusting the struts allows hinges to better fit misshapen knees and apply slight varus or valgus force to the knee.

Customizable Range of Motion

**SIZING CHART** Global Knee™ Part # 7640

PDAC Approved L1832/33. L2795 add on code is also recommended.

SIZE	CALF	THIGH
XS	11.0" - 13.0"	15.0" - 17.0"
S	12.5" - 13.5"	16.0" - 18.0"
M	13.5" - 15.5"	17.5" - 19.5"
L	14.5" - 16.5"	18.5" - 20.5"
XL	16.5" - 19.0"	19.5" - 22.0"
XXL	18.0" - 20.5"	20.5" - 23.0"
XXXL	19.0" - 22.0"	24.0" - 27.0"

Larger and custom sizes for 7640 models available upon request.  
Calf measured at widest part of calf. Thigh measured 6 inches above patella.
